

## PIT Pressure-to-Current Transmitter

Model: **PIT/3-15PSIG/4-20mA/12-42DC/-FA2 [DIN]**

The PIT pressure-to-current transmitter provides an economical solution when a pneumatic device must interface with a data acquisition control system, controller, recorder, or other electronic instrument.

### Product Details

Input	3-15PSIG
Output	4-20mA
Power	12-42DC
Options	-FA2
Input Description	3-15PSIG
Output Description	4-20mA
Supply Pressure/Loop Power	12-42DC
Options Description	Front electrical conn., rear pneumatic location
Installation Type	DIN Rail or Rack Mount
Supply and Output Medium	Air
Input	3-15PSIG
Output	4-20mA
Housing/Enclosure	DIN Rail Enclosure
Supply Filter/Regulator (I/P)	No
Output Gauge (I/P)	No
Field Enclosure Conduit Connection	Standard (NPT)
2" Pipe Mount Bracket	No
Hazardous Area Certifications	Non-Incendive/Div. 2, Zone 2
RoHS Compliant	Yes
